

Shopping

in the 'Ville

Your 2021 guide to shopping and services in Marysville, Michigan.

I-94 - Exit 266

Shop local, buy local.

Did you know that when you shop local, buy local you are helping your neighbors, friends, fellow residents and business owners in your community? Shopping locally, buying locally keeps your money in your community. Local stores employ our neighbors, pay taxes that support our schools and improve our roads and contribute to local non-profit groups. Commit to patronizing businesses near where you live.

Here are some of the benefits you can enjoy when you shop local, buy local:

- ***Shopping local creates jobs.*** Shops in our town create local employment and self-employment. These people in turn spend in the local economy.
- ***Local independent shops invest more in our communities.*** Local businesses are proportionally more generous in their support of local charities, schools, and community events. So supporting local shops means a financial contribution to your community.
- ***Local shops sell great products at affordable prices.*** Some people get out of the habit of shopping locally and are then surprised by the range of products available.
- ***Shopping locally saves you time and money.*** You travel less, saving on time and fuel.
- ***Shopping locally retains our communities.*** People don't like losing shops and services in small towns but don't equate this with how they spend their money.
- ***Shopping locally retains our distinctiveness.*** Independent shops create distinctive shopping experiences and stock different products. Local businesses respond more quickly to the needs of local customers, stocking products to meet changing population needs.
- ***Shopping locally saves the environment.*** Local shops often stock a high percentage of locally sourced goods that do not require long-distance transportation, helping to reduce our global footprint.
- ***Local shops are for everyone.*** Most people can get to their local shops easily. This is especially important for the elderly, young people and others who rely on public transportation.
- ***Local shops value you more.*** Evidence from numerous surveys show people receive better customer care and service locally. These businesses survive by their reputation and repeat business, which means you get a higher standard of service.
- ***Shopping local saves services.*** Private and public sector services cluster around shops. As shops disappear so do hairdressers, banks, restaurants and other businesses.

Together we can strengthen relationships that improve our quality of life. So next time before you make a purchase, Think. Shop. Buy. Local.

Interested in starting your own business?

City staff can help if you are looking for assistance or considering a new or expanded business in Marysville. Information regarding local zoning, permits and licensing is available. We are also happy to point you towards numerous organizations ready to answer your business or employment questions with no-cost and low-cost services. For further information, please contact our City Manager Randy Fernandez at rfernandez@cityofmarysvillemi.com or (810) 455-1312 .

Business Resources

[Economic Business Alliance of St. Clair County](#)

The Economic Development Alliance (EDA) of St. Clair County is a regional non-profit economic development agency. The EDA is supported by public and private sector investors and works closely with community stakeholders and regional partners to stimulate the economy and drive job growth and investment. The EDA markets our regional and community assets, spurs local entrepreneurialism, and provides unique solutions for both large and small businesses.

[Michigan Economic Development Corporation](#)

All the tools that potential Marysville business owners need to start and run their businesses are conveniently located at this website.

[Small Business Development Center Michigan](#)

The Michigan Small Business Development Center (SBDC) enhances Michigan's economic well-being by providing counseling, training, secondary market research for new ventures, existing small businesses and advanced technology companies.

[St. Clair County Community College Workforce Development](#) Cost-effective training solutions and educational services to enhance skills, increase productivity and improve work-force quality for entry level and continuing professional development.
