Building/Zoning Permit Application Checklist for Swimming Pools

_____ Completed building/zoning permit application for swimming pool.

- In ground pool requires a building permit.
- Above ground pool requires a zoning permit.
- All pools require an electrical permit.
- Mechanical permit is required when pool has a heater.

_____ Completed zoning permit application for fence surrounding the swimming pool.

- When using the pool 'wall' as the barrier, the top of the barrier shall be not less than 48 inches above grade and such height shall exist around the entire perimeter and for a distance of 3 feet measured horizontally from the outside of the barrier.

_____ Detailed site plan including all setbacks and anything else pertaining to pool such as fencing, pool equipment, decks and bonding.

- Swimming pools shall be no closer than six feet from any side and rear property lines or any other building structures including easements.

_____ Grade plan (Must be prepared, signed and sealed by a licensed surveyor or civil engineer.)

- Required for all in ground pools as well as above ground pools when excavation occurs.

Site plan and grade plan must match construction plans.

Required Inspections

- Open hole/footing (in ground only)
- Plumbing, mechanical, electrical permits must be completed and approved prior to scheduling a final building/zoning approval.
- Final inspection once construction is complete.

Fees are as follows:

- In ground pool - building permit required and is based on construction cost estimates. (See fee schedule.)
- Above ground pool - zoning permit required and is \$75.
- Fence - zoning permit required and is \$50.
